John R. Lund

Shareholder

"To be able to obtain justice for a client from a jury as well as our legal system, gives me a great sense of accomplishment."

Since 1984, Mr. Lund has had an active trial and litigation practice involving many kinds of disputes. Mr. Lund tried his first jury trial in early 1985 and ever since he has cherished the opportunity to represent clients in front of juries and judges. He has taken many trials to jury verdict and has also handled numerous bench trials and binding arbitrations. He handles complex litigation matters, defends catastrophic injury and product liability cases, and also represents insurers in coverage and bad faith cases.

In collaboration with Mr. Harold G. Christensen, Mr. Lund has developed an innovative specialty service called Snow Trial Services, which provides mock trials, juror focus groups, trial case evaluations, and other trial consultation services.
